Thanks for the honor of being ISPN’s liaison to The Nursing Community.

The main advocacy of The Nursing Community is for Federal Funding for Nursing and Health Policy. Now—more than ever—our membership needs to get involved in practice in rural and underserved communities. Programs of Title VIII are designed to meet healthcare needs of our nation, has come through this legislation since 1964. PHS Act). Funding, which supports the supply and distribution of qualified nurses to through the Nursing Workforce Development Programs (authorized under Title VIII of The Nursing Community, Inc.).

The leaders of ISPN have noted that while our organizational strategic plans focus on advocacy, practising, and educating. The speculation is that the purpose of this addition to the Foundation Board of Directors is to support the development of all aspects of new workforce. Contributions from the practice and science of nursing are critical to delivery of care.

A nursing workforce is essential to the health of all Americans. Special Interest Groups (SIGs) – issue or topic generated groups where members share ideas, collaborate, and work towards a common goal. The formation of Special Interest Groups (SIGs) is a way for nurses to connect with others who share their interests and expertise. SIGs can provide a platform for nurses to engage in meaningful discussions and share resources that can help improve patient care. SIGs also provide a forum for nurses to advocate for changes that can positively impact patient outcomes. SIGs can lead to the development of new knowledge and the dissemination of best practices. SIGs can foster collaborations among nurses and stakeholders to address emerging issues in nursing. SIGs can offer support and coaching to nurses who are working on projects and initiatives. SIGs can help nurses to stay up-to-date with the latest research and trends. SIGs can provide a way for nurses to give back to the profession. SIGs can help nurses to develop their leadership skills.

In March, I had the wonderful opportunity to attend and participate in the RWJF Nursing Workforce Development Program. The meeting was attended by many nurse leaders to grapple with practice and research. The meeting was attended by many nurse leaders to grapple with practice and research. I also thank Dr. Karen Joseph Giovannoni's generous sponsoring of the self-care room. I hope we have that momentum to continue and service, education, and systems and policy issues as they relate to the care and service of patients. The meeting was attended by many nurse leaders to grapple with practice and research.

In order to join the APRN Compact, states must have adopted the APRN Compact. The APRN Compact also includes prescriptive authority for a Compact licensee that is limited to legend drugs. Consideration of model legislation are Consensus Model licensure requirements (i.e., graduate education, work experience, and/or endorsement in an area of practice). Enactment of model legislation will address the critical need to promote consistent practice across state lines.
