SAFETY RULES & GUIDELINES

We welcome you to the 2016 ISPN Annual Conference. We know that you will find this to be an enriching and fulfilling experience. To ensure the safety and security of our attendees and guests, we have compiled the following list of safety rules and guidelines for this conference.

Minneapolis Marriott City Center is committed to providing our guests a safe and secure stay. When a security or safety situation arises, or an incident occurs that should be brought to our attention, we ask that you observe the following reporting protocols:

For emergency aid of any kind, call 911 from any telephone outside of the hotel grounds.

Review the fire safety procedures located on the door in your hotel room. Note the location of the fire exits in relation to your hotel room.

Don't answer the door in your hotel room without verifying who it is. All hotel employees will identify themselves verbally and will have a silver nametag. Please call the front desk or the operator if you are uncomfortable or uncertain.

When returning to the hotel late in the evening, use the lobby entrance.

Close the door securely whenever you are in your hotel room and use all of the locking devices provided.

Secure all of your valuables. Safe deposit boxes are available at the Front Desk.

Do not leave any articles of value in your vehicle in the parking lot.

When inside the conference venue, nametags should be worn and visibly displayed at all times. For security reasons, we recommend that you DO NOT wear your badge outside of the Minneapolis Marriott City Center.

Please do not leave any bags or articles unsecured in any display area, meeting room, or public area. Personal items are most commonly left or lost in the restrooms. Please double-check the area before leaving the restrooms.

Smoking is not permitted in the hotel. It is considered a smoke-free environment.

Do not open any fire exit or other access door to any person. Access to the conference is strictly for members and registered conference guests. All access to display areas, meetings, and symposia is through the appropriate entrance doors. All fire exits are alarmed.

If you note any suspicious article, packages, persons, or activity please contact the event staff or the front desk immediately.

Do not give your lodging information to any person.

In the event of an alarm, please proceed carefully to the nearest exit. Emergency evacuation routes are located on the back of every guestroom door. All public space areas are clearly marked with Exit signs. Use the stairwells to evacuate the building. Do not attempt to use the elevators. Any guest requiring assistance during an evacuation should dial "0" and notify the operator of their location. During an alarm, announcements will be made over the PA system informing guests to evacuate. For further information, read the security section of your in-room guest directory.

**ISPN would like to thank
its 2016 Annual Conference Sponsors!**
