Welcome to the 10th Annual ISPN Psychopharmacology Institute! The content has been carefully chosen based on feedback from ISPN members and from all the participants from previous ISPN Psychopharmacology Institutes. The Psychopharmacology Institute planning committee members have worked diligently over the last year to respond to ideas for topic areas and recommended speakers. The current content is comprehensive and addresses patients across the age spectrum, across the lifespan, and prescribing issues related to diverse practice settings. This year’s topics range from pediatric bipolar disorder, geriatric psychopharmacology, pharmacologic management during pregnancy and lactation, delirium across the lifespan, promoting adherence in schizophrenia, treating agitation across the lifespan, and utilizing knowledge of genetics to address methyl folate in depression. The McCabe Lectureship will be presented by Dr. Victoria Soltis-Jarrett, who will discuss Psychopharmacology and Somatization: Finding Health in Illness. Our closing plenary will be presented by Retired Lt. Colonel Jess Calohan, who will present Assessing and Treating Sleep-Related Disturbances Associated With PTSD. There’s something for everyone.

During the Institute, we have two special sessions focused on consultation from a panel of experts. The focus is on prescribing for populations that we care for, children and adolescents, adults/geriatric, and consultation liaison. We hope you will take the opportunity to be actively involved in the learning process by sharing a particularly clinical challenging case during the Prescribing Panels. This opportunity will generate discussion between the panel and the audience. The sessions are always a time of stimulating discussion filled with ideas and information. Additionally, this year there is a dedicated panel addressing Women’s Mental Health with a focus on reproductive psychiatric-mental health issues. Also, there will be a Product Theater presented by Acadia Pharmaceutical on Wednesday to provide you with information about a new medication for treating Parkinson’s Disease Psychosis (PDP), an often very challenging clinical presentation.

The Psychopharmacology Institute is designed to be interactive and assist you in developing partnerships that will last far beyond the two days of the Institute. You will have opportunities to network with advanced practice colleagues, establish relationships, and interact with the presenters. We actively encourage our student participants to continue their course of education into real-time practice and establish connections with experienced prescribing APRNS. We hope you will join us in making this educational event a very positive learning experience. Please take time to enjoy the city of Baltimore, and join us for the Opening Reception on Wednesday evening for the ISPN Annual Conference.

Best regards,

Susan Krupnick

Robert Whitacre, PMHNP-BC  
Edilma Yearwood, PhD, PMHCNS, BC, FAAN

### Objectives
This course has been designed so that the participants will be able to:

- Describe evidence based psychopharmacologic interventions and genetic testing strategies in the treatment of major psychiatric disorders (including major depressive disorder, bipolar disorders, and co-morbid depressive disorders in medically complex conditions, acute neuropsychiatric presentations (including delirium and psychosis in neurological disorder) in adult and geriatric individuals.

- Identify specific hormonally based mood dysregulation and anxiety disorders in the assessment and treatment of women's mental health across the life cycle.

- Discuss specific mood disorder presentations in children and adolescents along with targeted psychopharmacologic treatment.

- Discuss assessment and treatment of individuals with severe, persistent, psychotic disorders.

### Mobile App
ISPN Conference has gone mobile! Download Guidebook and search for ISPN Conference. View the entire conference agenda, and plan your schedule from your phone or tablet. For more information, stop by the ISPN Registration Desk.

### Mobile App
Nursing Contact Hours
This continuing nursing education activity was approved by the Wisconsin Nurses Association, an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation.

The ISPN 2017 Psychopharmacology Institute has been awarded a maximum of 10.48 continuing education nursing contact hours through the Wisconsin Nurses Association Continuing Education Approval Program Committee. Contact hours are complimentary with your registration fee.

To obtain continuing education contact hours for attending the ISPN Psychopharmacology Institute, please complete the attendance form included in your packet of materials. Please turn in one copy of the attendance form to the ISPN Registration Desk before you leave the conference. The attendance form will serve as your contact hour certificate.

### Registration
Psychopharmacology Institute registration will be open at the following times:

- Tuesday, March 7……..11:30 a.m.-5:00 p.m.
- Wednesday, March 8…. 7:30 a.m.-7:00 p.m.

### Evaluation Form
The program evaluation form will be emailed to your email address on file. Please complete and submit your evaluation form electronically, once received. Your comments are valuable to the ISPN and assist the Conference Committee in planning future conferences. If you have any questions about completing the evaluation form, please see the staff at the registration desk.

### Business Meeting
ISPN will hold its Annual Business Meeting on Saturday, March 11, starting at 7:15 a.m. in the Grand Ballroom. All members are encouraged to join the Board of ISPN to discuss the Society's business report. Please be sure to attend!

### Message Center
All messages for registrants will be posted on the Announcement Board in the ISPN Registration Area. If you are looking for someone at the meeting and can't catch up with her/him, leave a message on the board. Be sure to check this board each day so you don't miss a contact in Baltimore or a message from the office!

MISSION:
To support advanced-practice psychiatric-mental health nurses in promoting mental health care, literacy, and policy worldwide.

PRACTICES:
The practices of the International Society of Psychiatric-Mental Health Nurses are to:

- Strengthen the presence and voice of advanced practice psychiatric-mental health (PMH) nurses through contributions to standards, curricula, and public policy statements that promote equitable quality mental health care for individuals, families, and communities

- Promote advanced practice psychiatric nurses to deliver lifespan mental health care and literacy education to clients, families, and communities

- Promote members’ research and the development of scholarship through funding, presentations, and publications

- Support members’ efforts to collaborate with clients, families, communities, and national and international partners to address mental health issues

- Provide education, leadership development, and networking for members through conferences, online resources, service opportunities, and partnerships

A Closer Look at a Long-Acting Injectable for Schizophrenia: A Patient-Focused Discussion

Thursday, March 9, 2017

LOCATION
Baltimore Marriott Inner Harbor at Camden Yards
Grand Ballroom East & West
110 S. Eutaw Street
Baltimore, Maryland 21201

FEATURED FACULTY
Laura K. Melaro, DNP, APRN, FNP-BC, FPMHNP-BC
Family/Psychiatric Mental Health Nurse Practitioner and Consultant, Integrated Behavioral Health Program
Bolivar, Tennessee

AGENDA
12:00PM EST | Registration
12:10PM EST | Presentation
1:00PM EST | Q&A Session

Dr. Melaro is a paid consultant for Otsuka America Pharmaceutical, Inc. and Lundbeck.

The intended audience for this program is healthcare professionals involved in the treatment of patients with schizophrenia.

This program is sponsored by Otsuka America Pharmaceutical, Inc. (Otsuka) and Lundbeck and is not a CME activity.

In accordance with the PhRMA Code on Interactions with Healthcare Professionals, attendance at this educational program is limited to only Healthcare Professionals (Physicians, Nurse Practitioners, Physician Assistants, RNs, Clinical Pharmacists, Social Workers). Accordingly, attendance by guests or spouses is not permitted.

This is a promotional program and no CME credits are offered. This educational program may include the provision of a modest meal. Otsuka and Lundbeck do not offer such a meal to healthcare professionals (HCPs) whose institutions prohibit such hospitality, nor do Otsuka and Lundbeck offer a meal where federal or state laws (e.g., Vermont and Minnesota) limit an HCP’s ability to accept such a meal. Accordingly, please consult your legal or ethics advisor regarding any applicable limitation before attending this educational program. If you are licensed to practice in a state where meals are either prohibited and/or restricted and you accept a meal, you understand that you will be required to reimburse Otsuka for the cost of this meal.

Please note that Otsuka and Lundbeck are required to report the value of a provided meal pursuant to applicable federal and/or state laws.

This invitation is non-transferable.

Model is used for illustrative purposes only.
SAFETY RULES & GUIDELINES

We welcome you to the 2017 ISPN Annual Conference. We know that you will find this to be an enriching and fulfilling experience. To ensure the safety and security of our attendees and guests, we have compiled the following list of safety rules and guidelines for this conference.

Baltimore Marriott Inner Harbor at Camden Yards is committed to providing our guests a safe and secure stay. When a security or safety situation arises, or an incident occurs that should be brought to our attention, we ask that you observe the following reporting protocols:

- **For emergency aid of any kind, call 911 from any telephone outside of the hotel grounds.**
- Review the fire safety procedures located on the door in your hotel room. Note the location of the fire exits in relation to your hotel room.
- Don’t answer the door in your hotel room without verifying who it is. All hotel employees will identify themselves verbally and will have a silver nametag. Please call the front desk or the operator if you are uncomfortable or uncertain.
- When returning to the hotel late in the evening, use the lobby entrance.
- Close the door securely whenever you are in your hotel room and use all of the locking devices provided.
- Secure all your valuables. Safe deposit boxes are available at the Front Desk.
- Do not leave any articles of value in your vehicle in the parking lot.

When inside the conference venue, nametags should always be worn and visibly displayed. For security reasons, we recommend that you DO NOT wear your badge outside of the Baltimore Marriott Inner Harbor at Camden Yards.

Please do not leave any bags, laptops or articles unsecured in any display area, meeting room, or public area. Personal items are most commonly left or lost in the restrooms. Please double-check the area before leaving the restrooms.

Smoking is not permitted in the hotel. It is considered a smoke-free environment.

Do not open any fire exit or other access door to any person. Access to the conference is strictly for members and registered conference guests. All access to display areas, meetings, and symposia is through the appropriate entrance doors. All fire exits are alarmed.

If you note any suspicious article, packages, persons, or activity please contact the event staff or the front desk immediately.

Do not give your lodging information to any person.

In the event of an alarm, follow the following directions:

- Proceed carefully to the nearest exit. Emergency evacuation routes are located on the back of every guestroom door. All public space areas are clearly marked with Exit signs.
- Use the stairwells to evacuate the building. Do not attempt to use the elevators.
- Any guest requiring assistance during an evacuation should dial “0” and notify the operator of their location.

During an alarm, announcements will be made over the PA system informing guests to evacuate. For further information, read the security section of your in-room guest directory.

Alkermes plc is a fully integrated global biopharmaceutical company that applies its scientific expertise and technological know-how to develop innovative medicines for the treatment of central nervous system (CNS) diseases, including schizophrenia, depression, addiction and multiple sclerosis.
